

## Company Profile

BerlinWind offers independent expertise on wind energy focusing on the optimisation of wind turbine performance. For many years, we have been working successfully in the wind industry, helping our clients to make the operation of wind turbines more profitable.

BerlinWind employees are renowned experts for dynamic rotor balancing and for technical consulting. Clients benefit from our excellent knowledge of all types of wind turbines.

## Services

- ▶ Dynamic rotor balancing
- ▶ Verification of blade angles
- ▶ Load measurements
- ▶ Power curve measurements
- ▶ Vibration measurements
- ▶ Technical consulting
- ▶ Root cause analysis
- ▶ Technical inspections

## Products

- ▶ Balancing Box, a Plug-and-Use measuring system to check wind turbines for rotor imbalances (partner concept)
